SUMMARY

Final-year Computer Science undergraduate and SDE Intern at Kapture CX with experience building distributed backend systems, event-driven applications, and scalable full-stack platforms using Java, Spring Boot, Kafka, Redis, Docker, AWS, and React.

EXPERIENCE

Software Development Engineer Intern

Kapture CX

June 2026 - Present, Bengaluru, India

- Contributing to the development of SRE-GPT, an enterprise AI platform for automated incident investigation, root cause analysis, and operational knowledge discovery.
- Developing backend services using Python, FastAPI, PostgreSQL, and React, building scalable REST APIs and modular components for AI-driven investigation workflows.
- Implementing backend modules for conversation orchestration, context selection, retrieval planning, and enterprise knowledge retrieval.
- Building integrations with enterprise data sources, including StarRocks for ticket metadata retrieval and ClickHouse for operational log analytics.
- Collaborating with senior engineers to deliver AI-powered investigation features and improve enterprise observability workflows.

PROJECT

Enterprise Scholarship Management & Recommendation Platform

Remote • github.com/Hari2726h/Intelligent-Scholarship-Recommendation-Updated-

- Built an enterprise-grade scholarship platform featuring RBAC, document management, analytics dashboards, and application workflows.
- Implemented Kafka-based event-driven workflows with Redis caching, distributed locking, and asynchronous notifications.
- Deployed containerized services using Docker, GitHub Actions CI/CD, AWS EC2, and AWS S3.

Maatram DeserveIQ | Top 4 Among 200+ Teams

Remote • github.com/Hari2726h/DeserveIQ.git

- Built a Random Forest-based student dropout and deservingness prediction system using Python, Pandas, NumPy, and Scikit-learn, achieving 90% accuracy on 500+ student records.
- Implemented automated preprocessing, feature engineering, batch CSV prediction, and model explainability modules for risk assessment.
- Integrated ML services with Spring Boot and React for real-time prediction and student classification.

EDUCATION

Bachelor of Engineering Computer Science

Sri Krishna College Of Technology • Coimbatore. • 2027 • CGPA: 8.5/10

Higher Secondary Education in Mathematics and Biology

Mannar Higher Secondary School • Sivaganga. • 2023 • 92%

- Achieved Second Rank in Academics at the School Level

ACHIEVEMENTS

- [LeetCode](#) Rating: 1657 | Solved 900+ DSA problems across LeetCode, GeeksforGeeks, and Coding Ninjas.
- Achieved Top 4 among 200+ teams in the Maatram Hackathon and secured finalist finishes in multiple competitive hackathons.

SKILLS

- Languages: Java, Python, JavaScript, SQL
- Backend: Spring Boot, REST APIs, Spring Security, JWT, Hibernate
- Databases: MySQL, PostgreSQL, Redis
- Cloud & DevOps: AWS EC2, AWS S3, Docker, GitHub Actions, CI/CD
- Distributed Systems: Kafka, Event-Driven Architecture, Caching
- Core CS: Data Structures & Algorithms (DSA), OOP, Operating Systems (OS), DBMS, Computer Networks, System Design
